

PRODUCT FULFILLMENT

Selecting the proper hardware and software to help strengthen your organization is not a small task. Our product experts can help you make informed buying decisions based on your business requirements

TECHNOLOGY SERVICES

Our service experts act as your technology department – designing your environment for optimization and making sure to resolve any issues that come up as you focus on running your business.

WEB SOLUTIONS

Our programming analysts can help you build and/or implement the web based applications needed to connect your employees to the information they need and ensure your online voice is clearly heard by your customers and partners.

CONSUMABLE SUPPLIES

Technology supplies are needed for almost every aspect of your business life. Print, copy, fax, record, or easily conduct a tape back up our supplies professionals take the stress and guess work out of this daily requirement

Triware Technologies Inc. is a leading Newfoundland-based information technology consulting and support firm, with public and private sector clients throughout the province. Established in 1991, the company has extensive experience in business technology consulting and management with private sector clients, government organizations and public agencies. Our previous and current engagements include roles and responsibilities such as product fulfillment, support provision, web based solutions and consumable supplies management.
